JOHN DWIGHT & CO'S
SODA SALÆRATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearlash Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash. It is more economical than Pearlash Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found, John Dwight & Co.'s
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and other iron works leaving the iron perfectly dry, and not liable to rust.
Directions for use are printed on each package.

The proprietors of the Eckford Line would particularly call the attention of the Merchants of Wisconsin, Illinois, and other Western and South-western States to the superior facilities of their line for transportation to, and from, the ports on the Upper Lakes. The above line of Steamboats runs direct to our Dock, at Buffalo, and all goods contracted by this line for the Upper Lakes will be shipped (unless otherwise ordered or contracted) by *Steamboats*, (not Propellers) with but one, or possibly two exceptions. The Eckford is the only Line not interested in, or committed to, a Propeller Upper Lake Line; and in endeavoring to sustain a line of *Steamboats* on that route, the Proprietors hope to receive the support and patronage of the Merchants of the Western States, when interest demands the continuance of a line of such a class of Boats. Boats leave New York and Buffalo daily.

THE undersigned would respectfully solicit the attention of dealers in and consumers of Coal in Milwaukee to our Card, as above. The Bolivar Coal is unquestionably superior to any other mined in Ohio, for Grate, Blacksmithing, Machinery, or Domestic purposes; and for Steam purposes, is superior to any except Briar Hill. It is peculiarly well adapted to Shipping, as its extreme hardness renders it capable of bearing any amount of handling, without waste. It can be afforded considerably cheaper than Brier Hill, and for most purposes, is better.

It is our wish to introduce the article, and we respectfully solicit orders, confident that a trial is only necessary to convince any of the truth of the above assertion.

EMPIRE
INSURANCE COMPANY,
Union Springs, N. Y.
CAPITAL..........................$100,000.

THE Directors of the Empire Insurance Company feel confident that the plan of Insurance adopted by them will meet with a hearty response from a discerning public. Our Charter and By-Laws require that the applications received shall be divided into two or more classes. Dwelling Houses, and property of similar hazard, only, can be insured in the First Class, excluding Taverns, Work-shops, School-houses, Seminaries, Churches, and other kinds of hazardous property, usually taken in the so-called "Farmers' Companies," or "Farmers' Departments." This will render the EMPIRE emphatically a "FARMERS' COMPANY."

They submit for the judgment of their fellow citizens the following summary of their plan of operations:

1. Policies will be divided into distinct Classes, the funds of each class being kept separate, and each paying its own losses. The notes given in one Class are not liable for losses happening in the other.
2. Any applicant may, at his option, pay a definite sum in full for his insurance, in lieu of giving his note.
3. The First Class to consist of dwelling houses and other farm buildings and personal property therein. Not more than two-thirds of the value of any building to be insured; but the personal property therein may be insured to its cash value.
4. The Second Class to consist of Churches, School-houses, Seminary buildings, Work-shops, Taverns, Stores, Mills propelled by water power, &c., and personal property therein.
5. Not more than $3000 will be taken in one risk.
6. Steam Mills of all kinds, Distilleries, Cotton and Woolen Factories, Powder and Oil Mills, Furnaces, Machine Shops, and other extra hazardous property will not be taken in this company.
7. This Company will hold itself responsible for the correctness of all surveys and other official acts of its authorized agents, thus ending all cavil as to the technical correctness of surveys, and the consequent liability of the Company.
8. Any policy-holder may at pleasure withdraw from the Company by paying his share of the losses up to the time of such withdrawal.
9. This Company will adjust all claims with promptness and liberality, and if at any time a difference shall arise between the parties, the same may be settled by a mutual reference in the county where the loss shall have occurred.
10. Additional Stoves may be set up, or moved from one room to another, without giving notice to the Company; also, such repairs as do not increase the hazard of the property, need not be notified.
11. This Company will pay losses caused by lightning, whether the buildings are burned or otherwise damaged.
12. Should any more money be collected than sufficient to keep the company in a sound condition, it will be returned to the policy holders in proportion as each shall have paid in.

The Directors, in soliciting patronage for the *Empire Insurance Company*, do so in the firm conviction that the plan will be found as CHEAP and SAFE as any company can be made. In arranging their Rates of Hazard, and the kinds of property to be insured in each class, they have sought to secure sufficient cash premiums to meet all losses; laying by the small notes taken as a Reserve Fund, which shall render the Company perfectly safe against all contingencies.

For a more definite and full view of their plan of operations, they respectfully invite an examination of their Rates of Hazard and Classification of Property to be insured.

NEW YORK
MUTUAL BENEFIT ASSOCIATION,
Union Springs, N. Y.

THIS Association is formed, for the mutual relief of its members in case of sickness or accident. A careful examination of its principles, and its beneficent objects, is respectfully solicited. The character and standing of the Board of Directors is a guaranty that the money received will be safely preserved, and faithfully devoted to the objects proposed. The progress of HEALTH INSURANCE, within the past few years, in localities where its principles have been understood, and its beneficent results practically seen and felt, is unparalleled.

Men are literally binding themselves together to bear one another's burdens. No kind of Insurance can be so generally useful as that of Health; for most people are dependent upon it as the capital which enables them to procure the means of livelihood. Hence, when by disease or accident this is gone, all is gone; and either an unpleasant dependence on friends, or poverty and pauperism, is the consequence. It is not presumed that accident or the ravages of disease can be prevented; but by a wise forethought, a fountain may be provided, which, when the hand of affliction does come, will soften its asperities, and secure a comfortable support for yourself or family.

FIRE INSURANCE COMPANY.

Capital over $165,000—in Cash and Premium Notes.

THIS Company offers unrivalled facilities for the insurance of Buildings and Personal Property against fire. The advantages offered, are security beyond the reach of circumstances, as the real estate insured is by law bound for the assessment made to cover losses beyond the power of evasion. Every person insured is a member of the Company, and entitled to one vote. The cost of insurance does not exceed one-third as much as in Stock Companies, saying nothing of the increased security and the incomparable ease with which losses are settled. During the last five years, this Company have issued 3000 Policies, and made but three assessments at a cost to the property insured, not exceeding two mills on the dollar. Its business is principally confined to this State.

CHARLES DICKENS.

CHAPTER IX.—SIGNS AND TOKENS.

I don't know how it is, I seem to be always writing about myself. I mean all the time to write about other people, and I try to think about myself as little as possible, and I am sure, when I find myself coming into the story again, I am really vexed and say,—"Dear, dear, you tiresome little creature, I wish you wouldn't!" but it's all of no use. I hope any one who may read what I write, will understand that if these pages contain a great deal about me, I can only suppose it must be because I have really something to do with them, and can't be kept out.

My darling and I read together, and worked, and practised; and found so much employment for our time, that the winter days flew by us like bright-winged birds. Generally in the afternoons, and always in the evenings, Richard gave us his company. Although he was one of the most restless creatures in the world, he certainly was very fond of our society.

He was very, very, very fond of Ada. I mean it, and I had better say it at once. I had never seen any young people falling in love before. But I found them out quite soon. I could not say so, of course, or show that I knew anything about it. On the contrary, I was so demure, and used to seem so unconscious, that sometimes I considered within myself while I was sitting at work, whether I was not growing quite deceitful.

But there was no help for it. All I had to do was to be quiet, and I was as quiet as a mouse.—They were as quiet as mice, too. so far as any words were concerned; but the innocent manner in which they relied more and more upon me, as they took more and more to one another, was so charming, that I had great difficulty in not showing how it interested me.

"Our dear little old woman is such a capital old woman," Richard would say, coming up to meet me in the garden early, with his pleasant laugh, and perhaps the least tinge of a blush, "that I can't get on without her. Before I begin my harum-scarum day—grinding away at those books and instruments, and then galloping up hill and down dale, all the country round, like a highwayman—it does me so much good to come and have a steady walk with our comfortable friend that here I am again!"

"You know, Dame Durden, dear," Ada would say at night, with her head upon my shoulder, and the firelight shining in her thoughtful eyes, "I don't want to talk when we come up stairs here. Only to sit a little while thinking, with your dear face for company; and to hear the wind, and remember the poor sailors at sea—"

Ah! Perhaps Richard was going to be a sailor. We had talked it over very often, now, and there was some talk of gratifying the inclination of his childhood for the sea. Mr. Jarndyce had written to a relation of the family, a great Sir Leicester Dedlock, for his interest in Richard's favor, generally; and Sir Leicester had replied in a gracious manner, "that he would be happy to advance the prospects of the young gentleman if it should ever prove to be within his power, which was not at all probable—and that my Lady sent her compliments to the young gentleman (to whom she perfectly remembered that she was allied by remote consanguinity), and trusted that he would ever do his duty in any honorable profession to which he might devote himself."

"So I apprehend it's pretty clear," said Richard to me, "that I shall have to work my own way. Never mind! plenty of people had to do that before now, and have done it. I only wish I had the command of a clipping privateer, to begin with, and could carry off the Chancellor, and keep him on short allowance until he gave judgement in our cause. He'd find himself growing thin, if he didn't look sharp."

With a buoyancy and hopefulness, and a gayety that hardly ever flagged, Richard had a carelessness in his character that quite perplexed me—principally because he mistook it, in such a very odd way, for prudence. It entered into all his calculations about money, in a singular manner, which I don't think I can better explain than by reverting for a moment to our loan to Mr. Skimpole.

Mr. Jarndyce had ascertained the amount, either from Mr. Skimpole himself or from Coavinses, & had placed the money in my hands with instructions to me to retain my own part of it and hand the rest to Richard. The number of little acts of thoughtless expenditure which Richard justified by the recovery of his ten pounds, and the number of times he talked to me as if he had saved or realized that amount would form a sum in simple addition.

"My prudent Mother Hubbard, why not?" he said to me when he wanted, without the least consideration, to bestow five pounds on the brickmaker. "I made ten pounds, clear, out of Coavinses' business"

"How was that?" said I.

"Why, I got rid of ten pounds which I was quite content to get rid of, and never expected to see any more. You don't deny that?"

"No," said I.

"Very well! Then I came into possession of ten pounds—"

"The same ten pounds," I hinted.

"That has nothing to do with it!" returned Richard. "I have got ten pounds more than I expected to have, and consequently I can afford to spend it without being particular."

In exactly the same way, when he was persuaded out of the sacrifice of these five pounds by being convinced that it would do no good, he carried that sum to his credit, and drew upon it.

"Let me see!" he would say, "I saved five pounds out of the brickmaker's affair; so, if I have a good rattle to London and back in a post chaise and put that down at four pounds, I shall have saved one.—And it's a very good thing to save one, let me tell you: a penny saved is a penny got."

I believe Richard's was as frank and generous a nature as there possibly can be. He was ardent and brave, and, in the midst of all his wild restlessness, was so gentle, that I knew him like a brother in a few weeks. His gentleness was natural to him, and would have shown itself, abundantly, even without Ada's influence; but, with it, he became one of the most winning of companions, always so ready to be interested, and always so happy, sanguine, and light-hearted. I am sure that I, sitting with them, and walking with them, and talking with them, and noticing from day to day how they went on, falling deeper and deeper in love, and saying nothing about it, and each shyly thinking that this love was the greatest of secrets, perhaps not yet suspected even by the other.—I am sure that I was scarcely less enchanted than they were, and scarcely less pleased with the pretty dream.

We were going on in this way, when one morning at breakfast Mr. Jarndyce received a letter, and looking at the superscription said, "From Boythorn? Ay, ay!" and opened and read it with evident pleasure, announcing to us, in a parenthesis, when he was about half-way through, that Boythorn was "coming down" on a visit. Now, who was Boythorn? we all thought. And I dare say we all thought, too—I am sure I did, for one—would Boythorn at all interfere with what was going on?

"I went to school with this fellow, Lawrence Boythorn," said Mr. Jarndyce, tapping the letter as he laid it on the table, more than five-and-forty years ago. He was then the most impetuous boy in the world, and he is now the most impetuous man. He was then the loudest boy in the world, and he is now the loudest man. He was then the heartiest and sturdiest boy in the world, and is now the heartiest and sturdiest man. He is a tremendous fellow."

"In stature, sir?" asked Richard.

"Pretty well, Rick, in that respect," said Mr. Jarndyce; "being some ten years older than I, and a couple of inches taller, with his head thrown back like an old soldier, his stalwart chest squared, his hands like a clean blacksmith's, and his lungs! there is no simile for his lungs. Talking, laughing, or snoring, they make the beams of the house shake."

As Mr. Jarndyce sat enjoying the image of his friend Boythorn, we observed the favorable omen that there was not the least indication of any change in the wind.

"But it's the inside of the man, the warm heart of the man, the passion of the man, the fresh blood of the man, Rick—and Ada, and little Cobweb too, for you are all interested in a visitor!—that I speak of," he pursued. "His language is as sounding as his voice. He is always in extremes; perpetually in the superlative degree. In his condemnation he is all ferocity. You might suppose him to be an Ogre, from what he says; and I believe he has the reputation of one with some people. There! I tell you no more of him beforehand. You must not be surprised to see him take me under his protection; for he has never forgotten that I was a low boy at school, and that our friendship began in his knocking 2 of my head tyrant's teeth out (he says six) before breakfast. "Boythorn and his man," to me, "will be here this afternoon, my dear."

I took care that the necessary preparations were made for Mr. Boythorn's reception, and we looked forward to his arrival with some curiosity. The afternoon wore away, however, and he did not appear. The dinner-hour arrived, and still he did not appear. The dinner was put back an hour, and we were sitting around the fire, with no light but the blaze, when the hall-door suddenly burst open, and the hall resounded with these words, uttered with the greatest vehemence and in a stentorian tone:

"We have been misdirected, Jarndyce, by a most abandoned ruffian, who told us to take the turning to the right instead of the left. He is the most intolerable scoundrel on the face of the earth. His father must have been a most consummate villain, ever to have had such a son. I would have that fellow shot without the least remorse."

"Did he do it on purpose?" Mr. Jarndyce inquired.

"I have not the slightest doubt that the scoundrel has passed his whole existence in misdirecting travellers!" returned the other. "By my soul, I thought him the worst-looking dog I had ever beheld when he was telling me to take the turning to the right. And yet I stood before that fellow face to face, and didn't knock his brains out!"

"Teeth, you mean?" said Mr. Jarndyce.

"Ha, ha, ha, laughed Mr. Lawrence Boythorn, really making the whole house vibrate. "What, you have not forgotten it yet! Ha, ha, ha!—And that was another most consummate vagabond! By my soul, the countenance of that fellow, when he was a boy, was the blackest image of perfidy, cowardice, and cruelty ever set up as a scarecrow in a field of scoundrels! If I were to meet that most unparalleled despot in the streets to-morrow, I would fell him like a rotten tree!"

"I have no doubt of it," said Mr. Jarndyce. "Now, will you come up stairs?"

"By my soul, Jarndyce," returned his guest, who seemed to refer to his watch, "if you had been married, I would have turned back at the garden gate, and gone away to the remotest summits of the Himalayan Mountains, sooner than I would have presented myself at this unseasonable hour."

"Not quite so far, I hope!" said Mr. Jarndyce.

"By my life and honor, yes!" cried the visitor. "I wouldn't be guilty of the audacious insolence of keeping a lady of the house waiting all this time, for any earthly consideration. I would infinitely rather destroy myself—infinitely rather."

Talking thus, they went up stairs; and presently we heard him in his bed-room thundering "Ha, ha, ha!" and again "Ha, ha, ha!" until the flattest echo in the neighborhood seemed to catch the contagion, and to laugh as enjoyingly as he did, or as we did when we heard him laugh.

We all conceived a prepossession in his favor; for there was a sterling quality in his laugh, and in his vigorous, healthy voice, and in the roundness and fullness with which he uttered every word he spoke, and in the very fury of his superlatives, which seemed to go off like blank cannons, and hurt nothing. But we were hardly prepared to have it so confirmed by his appearance, when Mr. Jarndyce presented him. He was not only a very handsome old gentleman—upright and stalwart as he had been described to us—with a massive gray head, a fine composure of face when silent, a figure, that might have become corpulent but for his being so continually in earnest that he gave it no rest, and a chin that might have subsided into a double chin but for the vehement emphasis in which it was constantly required to assist; but he was such a true gentleman in his manner, so chivalrously polite, his face was lighted by a smile of so much sweetness and tenderness, and it seemed so plain that he had nothing to hide, but showed himself exactly as he was—incapable (as Richard said) of anything on a limited scale, and firing away with those blank great guns, because he carried no small arms whatever—that really I could not help looking at him with equal pleasure as he sat at dinner, whether he smilingly conversed with some great volley of superlatives, or threw up his head like a blood-hound, and gave out that tremendous "Ha, ha, ha!"

"You have brought your bird with you, I suppose?" said Mr. Jarndyce.

"By Heaven he is the most astonishing bird in Europe!" replied the other. "He is the most wonderful creature! I wouldn't take ten thousand guineas for that bird. I have left an annuity for his sole support, in case he should outlive me. He is, in sense and attachment, a phenomenon. And his father before him was one of the most astonishing birds that ever lived."

The subject of this laudation was a very little canary, who was so tame that he was bro't down by Mr. Boythorn's man, on his forefinger, and after taking a gentle flight around the room, alighted on his master's head. To hear Mr. Boythorn presently expressing the most implacable and passionate sentiments, with this fragile mite of a creature quietly perched on his forehead, was to have a good illustration of his character, I thought.

"By my soul, Jarndyce," he said, very gently holding up a bit of bread to the canary to peck at, "if I were in your place, I would seize every Master in Chancery by the throat to-morrow morning, and shake him until his money rolled out of his pockets, and his bones rattled in his skin. I would have a settlement out of somebody, by fair means or by foul. If you would empower me to do it, I would do it for you with the greatest satisfaction!" (All this time, the very small canary was eating out of his hand.)

"I thank you, Lawrence, but the suit is hardly at such a point at present," returned Mr. Jarndyce laughing, "that it would be greatly advanced, even by the legal process of shaking the Bench and the whole Bar."

"There never was such an infernal cauldron as that Chancery, on the face of the earth!" said Mr. Boythorn. "Nothing but a mine below it on a busy day in term time, with all its records, rules, and precedents collected in it, and every functionary belonging to it also, high and low, upward and downward, from its son the Accountant-General to its father the Devil, and the whole blown to atoms with ten thousand hundred weight of gunpowder, would reform it in the least!"

It was impossible not to laugh at the energetic gravity with which he recommended this strong measure of reform. When we laughed, he threw up his head, and shook his broad chest, and again the whole country seemed to echo to his Ha, ha, ha! It had not the least effect in disturbing the bird, whose sense of security was complete; and who hopped about the table with its quick head now on this side, and now on that, turning its bright sudden eye on its master, as if he were no more than another bird.

"But how do you and your neighbor get on about the disputed right of way?" said Mr. Jarndyce. "You are not free from the toils of the law yourself."

"The fellow has brought actions against *me* for trespass, and I have brought trespass against *him* for trespass," returned Mr. Boythorn. "By Heaven, he is the proudest fellow breathing. It is morally impossible that his name can be Sir Leicester. It must be Sir Lucifer."

"Complimentary to our distant relation!" said my Guardian, laughingly, to Ada and Richard.

"I would beg Miss Clare's pardon and Mr. Carstone's pardon," resumed our visitor, if I were not reassured by seeing in the fair face of the lady, and the smile of the gentleman, that it is quite unnecessary, and that they keep their distant relation at a comfortable distance."

"Or he keeps us," suggested Richard.

CONTINUED TO-MORROW.

Editorial Correspondence of the Albany Evening Journal.

LETTERS FROM MR. WEED—No. 28.

Ferrara, April 23.

Our route to-day from Bologna to Ferrara has been through one of the most fertile and beautiful countries my eye ever rested on. For nearly 40 miles, and on either side of the road as far as your vision extended, was a broad plain, perfectly level and broken into fields by rows of Lombardy Poplars, which afford a support for vines that grow luxuriously. Instead of the numerous old towns that you encounter elsewhere in Italy, here are only Farm Houses, in and around which there is an appearance of comfort that reminds us of Home.

FERRARA is a very Ancient City, with annals as eventful as most of its kindred cities. It once contained 100,000 inhabitants, though its population has dwindled down to less than 30,000.

We came in at 2 1-2 o'clock, and ordering Dinner for five, sallied out immediately "sight-seeing." Anxious to see the best works of GAROFALO, some of whose pictures we saw at Rome, we went first to the Church of St. Francisco, and then to the Cathedral. From thence to the Dungeon in which Tasso was confined seven years, upon the walls of which is his name, and where Byron and other distinguished poets have since cut their own. Our next object was the Library in which there are manuscripts of ARIOSTO and TASSO, but for this we were too late.

We then proceeded to the Castle or Ducal Palace of the Ferrara Family in its days of Power, now the residence of a Cardinal. It was built many centuries ago, and is a "grand, gloomy and peculiar structure, with Towers, Moat, Draw-Bridge, &c. In the Dungeons of this Palace the Tragedy upon which BYRON founded his Poem of "Parisina" was enacted. We were taken to the frightful cells in which PARISINA and UGO were confined, and where they paid with their lives the penalty of their guilty loves.

Returning we saw a procession of Priests escorting the Cardinal Legate to the Cathedral, whither we also repaired to Vespers.

On our way back to the hotel, I was not a little surprised to see in a theatrical poster, that "MACBETH" is to be played in Ferrara; and approaching it, I was still more surprised to find among the "Dramatis Personæ," the name of AUGUSTA MAYWOOD! This lady, (the daughter of my old friend MAYWOOD, the actor, scholar and gentleman) was born in Philadelphia. And yet I find her name in a bill to play to-morrow night in Northern Italy! I should like, for the novelty of the thing, to hear Macbeth done in Italian, but we depart in the morning.

Padua, April 24.

Leaving Ferrara at six o'clock this morning we have been all day travelling through a lovely country. Seven miles from Ferrara we crossed the River Po, which is about as broad as the Mohawk at Schenectady, with, a rapid discolored current. The process of crossing was novel. A long line is made fast to a buoy in the centre of the River an hundred rods above the Ferry. This line was attached to the bow of our Boat, which, by the action of the current, was soon carried to the opposite shore. This, to me, was a new, simple and cheap propelling power. The line was kept out of the water by nine small canoes placed at equal distances between the Buoy and Ferry Boat. The helm only is used in crossing.

Along the river you see numerous Flouring Mills, riding at Anchor, the wheels of which are turned by the current. They are of primitive construction, but are said to make tolerable flour. The supply of water never fails, and for "custom work" they seem a very good sort of mill.

The road, after crossing the Po, perfectly straight and level for twenty miles, is shaded delightfully by rows of Lombardy Poplars, of uniform size, making an avenue of extreme beauty. About twelve miles from Padua we approached Mountains clothed in verdure and cultivated to their tops. This was a new and pleasant feature, for since we left Marseilles, travelling over 1000 miles, we had not seen a mountain that rejoiced in a tree, or vine, or shrub, or blade of grass.—These fertile mountains evidently add much to the aggregate wealth of the country adjacent, for no where in Italy are there such unequivocal evidences of prosperity. Here, not only the vallies but the hills "drop their fatness." And here stately Mansions and lofty Palaces abound.

Padua is not behind other Italian Cities in its historical interest. It claims to have given birth to many distinguished men, to the memory of whom they have preserved numerous memorials in Marble and Bronze. The remains of Antenor, the founder of their city, and of Livy, are held in the highest reverence. In approaching Padua, the Church of San Antonio, with its 8 splendid Cupolas, is highly effective; and in entering it you are delighted with its beautiful Park, surrounded by water and adorned with Fountains and Statuary.

From Padua we take the Railroad to Venice. This, after four days traveling by Vetturini, is a great relief. There are many annoyances incident to travel through Italy, whether by Diligence, Post or Vetturini, which, if you choose, would render you constantly unhappy. But we have kept our tempers so far, though pretty severely tried by the various modes of plunder and extortion resorted to by those you deal with. W.

THURSDAY MORNING, JUNE 3, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.

UNDER THE NAME AND FIRM OF

RUFUS KING & CO.

The Baltimore Convention.

We received yesterday morning, and issued in an extra, a brief account of the organization at the Democratic Convention on the evening previous. Hon. John W. Davis, formerly Speaker of the H. of R., is President, assisted by a Vice President from each State. The *two third rule was adopted*, and this in the minds of most persons, is likely to prevent Gen. Cass' nomination.

The state of the atmosphere was such during the day and evening, (a very heavy thunder storm about dark) that our despatches failed to get thro'. We shall lay the news before our readers at the earliest possible moment.

THE MAILS.—The *News* thinks that it is "not a supposable case" that mail delays should occur under a "democratic" Administration, and adds:

During the whole four years of Mr. Polk's Administration such delays were the exception, rather than the rule, as under the present whig dynasty. The mails frequently arrived here from Buffalo in less time than they are now in the habit of taking, although they then came entirely by water, while now the distance is shortened about half, and the time less than half, by railroad.

A glance at the above will discover numerous errors and exaggerations; and a review of the files during Mr. Polk's administration shows quite as bitter complaints of the mails as now.

However, we have no objection to having the *News* turn in with us and help to correct the evils under which we labor relative to the mails, so long as it don't talk of prescribing a "democratic administration" for them. All experience has shown that the remedy is far worse than the disease.

THE BANK LAW.—The Watertown *Register* (dem), in an article upon this subject, says:—

The democratic press in the State, have exhausted all their arguments in opposition to banks, and we see nothing in the law to induce a change in their course of action. * * * * * * *

The vote of the people last fall indicated a wish for banks, and if they endorse the bill framed by the Legislature, they are responsible for what of good or evil grows out of the adoption of the system. We are opposed to it and shall vote against it, for reasons given heretofore.

As the *Register* does not oppose the law on account of the Railroad sections, and, to the best of our memory, has urged nothing against it save that it *is* a bank law, we are led to the irresistible conclusion that our Watertown neighbor is endeavoring to prepare the minds of the old fashioned anti-bank democracy for another lesson from the people this fall.

MILWAUKEE AND CHICAGO.—The Chicago *Tribune* very handsomely disclaims, on the part of the business-men of that city, any participation in the slanders which have been circulated largely in reference to our city and State. It says:—

No class of persons out of Milwaukee will be gratified at its prosperity more than the business men of Chicago, for the interests of the two cities are so identified that whatever affects one will also affect the other. There is no jealousy of Milwaukee here; on the contrary, it has the best wishes of our citizens.

Certainly, there is no good reason why the two cities should quarrel. Individual and corporate interests, however, cause a forgetfulness or disregard of all rules of propriety; and, the land and lot agents, and steamboat and railroad runners have, during the last two years, exhausted every effort to draw off the emigration from this quarter. Their day is about over.

Well, There!!

Among the speakers at the meeting in New York in favor of the Homestead bill, the N. Y. *Mirror*, a sort of nondescript paper, announces the name of "Gen. Booth, editor of the Milwaukie *Free Democrat*—Whig paper!"

See, now what it is to be noticed by the papers!

THE PARIS LOTTERY.—Our readers will remember that the scheme of this California lottery was seven millions of tickets, at one franc each, the alleged object being to provide funds for the emigration of a party of volunteers to California.

Late accounts seem to prove that the scheme was got up by Louis Bonaparte, for the purpose of paying his debts. To get more money, duplicates of 2,500,000 tickets were sent to the provinces for sale. The account goes on as follows:

One fine day, a gentleman from the provinces, walking in the Rue Montmartre, noticed some lottery tickets for sale in a tobacconist's window, bearing precisely the same numbers as some which he had in his own pocket; whereupon our provincial friend demanded loudly for an explanation. A crowd gathered and a row ensued.—Great was the consternation of the directors; they resigned. Statements were forwarded to the newspapers, by the prefect of police, acknowledging that a few duplicate tickets had been inadvertently issued, &c. &c. and announcing the drawing to take place on the 11 of November.—Before the end of a week from that time, there were forty-three claimants for the first twenty-five prizes. The directors, in a fix, required a month to decide. In the meantime came the 2d of December; with it, of course, a verdict of acquittal. Not that the dupes ceased their clamor, but the scandal which the exposure produced through the newspapers, was afterwards confined to the tribunals.

It is on account of one of these claims that the Tribunal of the Seine has just condemned the directors of the lottery to pay, with costs, the holders of the tickets, and their duplicates, numbered, 1,732,833 (prize 25,000 francs,) and 2,898,291 (prize 50,000 francs.)

MILWAUKEE BRICK.—The Albany *Register* says:

A new kind of brick, of beautiful cream color, is about being introduced into the city, by the gentlemen who are tearing down the "New England House" and building in the rear. These bricks are made at Chicago, and their color will be as enduring as the brick itself. They will be used in the front portion, only.

The brick referred to by the *Register* is our Milwaukee brick. Considerable of it has been used in Chicago, but it is a rarity. Here it is the only kind made and used. If the editor of the *Register* has never visited our city, it would be worth his while to take a look at a town built of such material.

☞ Advices from Cape of Good Hope to April 1, report horrible cruelty has been perpetrated by the Kaffers. Men were cut up by piece meal. In one of the engagements Hon. W. Rostlee was killed, officers wounded, and 36 soldiers killed. Rumors of other extensive conspiracies were current among the natives. Orange co. is reported in a state of rebellion, the Boors asserting its sovereignty, as also that of Natal.

WINNEBAGO CO. ELECTION.—A correspondent of the *Wisconsin* gives the following details of the election in Winnebago co. for County Judge:

	WHEELER.	DENSMORE.
Oshkosh,	260	70
Neenah,	125 maj.	—
Black Wolf,	13	8
Utica,	4	26
Bloomingdale,	14	36
Vinland,	8 maj.	—

There seems to have been no party nomination. Mr. Wheeler is a whig, and was a Union candidate. He is doubtless elected.

City Matters.

Milwaukee Horticultural Society.

The regular monthly meeting of this Society will be held on Saturday afternoon of this week, at 2½ o'clock, at the rooms of the Board of Trade. A full attendance is looked for.

THE "FAKIR."—The "Grand Presentation Soiree of the Fakir of Siva, comes off to-night at Gardiner's Hall. Of course the crowd will be there to see his clever performances, and take lessons in magic, illustrations of which the Fakir gives free of charge.

In the bow window at Kirby's may be seen the presents which are to be distributed among the audience. This is the last night of the Magician, and we suppose everybody and his wife will be on hand.

FOURTH OF JULY.—The owners of the tents and booths on the festival grounds are requested to send a Committee to meet the Committee of Arrangements for the celebration of the 4th of July at the Common Council on Saturday evening next at 8 o'clock.

MUSICAL SOCIETY CONCERT.—The members will find in our paper this morning the programme of the Concert, which was postponed last week. It takes place on Friday (to-morrow) evening.

PHRENOLOGY.—Prof. PALMER continues his lectures at the Free Congregational Church to good houses.

AUCTION SALE.—WALL has a large sale of goods of various kinds this morning. See his advertisement for particulars.

☞ The attention of Jewellers is invited to the card of GEO. W. WEEKS, 4 Liberty Place, New York.

☞ See SHANNON & CONOVER's Auction appointments for the week, presenting opportunities for bargains.

☞ S. W. SEA sells a fine lot of furniture this morning.

The Lost Child.

In the Fox River *Courier*, we find a reward offered by Balton Youngs, of Greenbush, Sheboygan Co., for the recovery of his missing child.—Mr. Y. estimates his whole worldly possessions as $500, and offers all for his little one. The *Courier* gives the following circumstances of the case:—

It seems, from the story of the father of the lost child, who lives in Greenbush, Sheboygan Co., that his little boy, two years old, went with its mother to a brook nearly forty rods from the house. The mother left the child at the brook, and went to the house, and upon returning, it had disappeared, and no traces of it could be found. The neighborhood were immediately rallied, and scoured the country in every direction. Between 200 and 300 persons have been hunting several days, but no satisfactory tidings has been heard. Two or three Indians were seen prowling about in that neighborhood the day previous, and it is generally supposed that it was kidnapped by them.

POSTAGE.—The following amount of postage received during the last fiscal year in the several large cities of the country, shows their relative position in regard to business:

New York,	$531,830,89
Philadelphia,	197,049,08
Boston,	176,756,64
New Orleans,	117,866,85
Baltimore,	99,070,87
Cincinnati,	82,333,16
St. Louis,	53,062,31

☞ Petitions are in circulation in Rhode Island, addressed to the General Assembly, and praying for the restoration of the punishment of death for murder. The Providence *Journal* says:

"These petitions have been signed by large numbers of people. We do not know what is the sentiment of the other parts of the State, but we think that public opinion in Providence was opposed to the repeal of the law, and is decidedly in favor of its re-enactment."

UNCLE TOM'S CABIN.—The Wheeling, Gazette, in a notice of this popular book says:

Forty thousand copies have been sold, and it is said as freely sold in the South as in the North. We confess to having read it with deep interest, and to the admission that the main points made, and the main pictures drawn, are to the life, tho' extreme cases.

☞ The steamer *Lady Elgin*, Capt Appleby's new boat, is now running in connection with the *Keystone State* and *Niagara*, between Detroit and Dunkirk, in connection with the Michigan Central Rail Road line.

The fine steamer *Empire* will probably take the place of the *Elgin* in the upper lake line.—She will be welcome back to our waters.

☞ Two destructive accidents have happened in the Welch Collieries; the first was an explosion of fire damp, by which eighty persons were killed; the other was the flooding of a pit by which twenty-eight were drowned.

ANTI SLAVERY CONVENTION.—This Convention, presided over by Edward Quincy, and addressed by Garrison and Pillsbury and others, has been grinding out blasphemy at Boston during the last week. We do not care to soil our columns with a report of their doings.

☞ St John, N. B. papers of the 25th of May contain accounts of a collision on St. John's river, between the steamer Ann Augustus and steam tug Transit. The boiler of the Ann Augustus exploded, scalding ten persons, two of whom (firemen of the boats) have since died, and another is believed to be fatally injured.

"FOX RIVER COURIER."—The first number of this new paper, published at Oshkosh by J. Hugh McAvoy, has reached us. It looks well, and promises to divide the honors with the *Democrat*.—It is to be democratic, progressive, anti-compromise-finality, in politics.

SOUTHERN MICHIGAN R. R.—The Chicago *Journal* learns that, after the present week, the trains on the Southern Michigan Rail Road will run to Monroe, instead of Toledo, the T rail being laid down the whole length of the road.

GREAT RACE.—A race between a couple of California horses took place at Los Angelos on the 21st of April, on a wager of 1000 head of cattle and $2000 in cash. The winning horse accomplished 9 miles in 19m. 20sec.

OHIO DEBT.—The last Loco Foco legislature of Ohio neglected to provide for the payment of the July interest on the State debt, and drafts have been returned protested.

BERLIN, MARQUETTE CO.—A census of Berlin has just been taken, and the population of that thriving, bustling Fox River town proves to be about 1200.

☞ The Rev. Dr. L. Scott of New York, and Rev. Messrs. Simpson, of Cincinnati, P. C. Baker, of N. Hampshire, and E. R. Ames, have been appointed Bishops of the Methodist church.

BOARD OF PUBLIC WORKS.—Met at the Office of the Secretary on Saturday last, and organized by electing Peter H. Prame, President. No acting commissioner was elected, the work being divided as follows, viz: The Wisconsin River to Commissioner Richardson, the Upper Fox River to President Prame, and the Lower Fox to Commissioner Proudfit.

R. F. Wilson, of Madison, was appointed collector at Des Peres.

On Monday the Board left for Fort Winnebago, and will return by Saturday of this week, when they will visit the lower portion of the Improvement. The plats of the Indian lands have been received at the Land Office, and it only awaits the action of the Governor to bring them into market. It should be done as soon as possible, as there are many holding warrants that should be paid.—*Fox River Courier*.

THROUGH TO THE MISSISSIPPI.—We have noticed at different times during the spring sail crafts of respectable size, making their way to the Mississippi, via the Fox and Wisconsin rivers, heavily loaded with emigrants and family stores.—This mode of emigrating is becoming quite common, and appears to be attended with as little inconvenience, and much less molestation than any other way which has been devised.

Last week we saw a horse-boat working its way up the River, loaded with lumber bound for St. Louis. This kind of trade is fast seeking its natural channel, and it is no great tax upon the imagination to see that Southern commodities will come to us eventually by the way of the Mississippi, in exchange for our forest productions, at no distant day.—*Berlin Mercury.*

Flour Trade in Chili.

Three and a half millions of gold were sent last year—by official returns—to Chili from San Francisco, and of this, the large amount of two millions was paid for Chili flour, imported into San Francisco. THE GENERAL ASSEMBLY OF THE PRESBYTERIAN CHURCH.—A motion to print Rev. Mr. Barnes' sermon was before the Assembly, which led to a discussion between the Reverends Mr. Wisum, Beman, Pollock and others; objecting that it contained views and expressions to which they did not desire the Assembly to be committed. The Reverends Mr. Hawley, Woodruff and others advocated the publication. The resolution was finally postponed, with the understanding that the sermon would be printed.

Thomas Francis Meagher.

Thomas Francis Meagher, the Irish exile, held a levee yesterday forenoon at the office of Persse & Brooks, in Nassau street. He was waited upon by an immense number of persons, both Americans and Irishmen—all of whom congratulated him upon his escape. He freely conversed with them all, and readily answered such questions as were asked him, though he was cross-examined rather freely by some gentlemen. Among those who called were some of the most prominent of the Whig and Democratic politicians. In reference to a remark of some person about Kossuth, Mr. Meagher said he was not opposed to Kossuth, for if he were, he would be only injuring his own cause, which was identical with that of Hungary.—*N. Y. Herald 30th.*

ORDINATION OF FOUR BISHOPS.—The ordination of the four newly elected bishops of the Methodist Episcopal Church took place at 11 o'clock to-day, in the presence of the Methodist Episcopal General Conference, now in session in the Bromfield Street church—Bishop Waugh in the Chair. The four gentlemen, Rev. Messrs. Scott, Ames, Simpson and Baker, were duly presented by proper Committees, and took up their place before the alter. Public prayer was then offered, after which Bishop Morris read that portion of the Gospels indicated by the discipline, Bishop Morris led in prayer.

The usual formula of questions was gone through with by Bishop Waugh, the candidates answering in concert, promising faithfulness as Christians, as ministers, and bishops. After another prayer, the ceremony of imposition of hands on each of the four candidates successively took place. Exhortations from Scripture were read by Bishop Morris. Bishop Janes presented the parchments certifying thir election to the office of Bishops, and read the concluding prayer.—The ceremonies of the occasion ended with the singing of a doxology and the pronunciation of benediction by Bishop Waugh,—*Boston Traveller 27th.*

GORED.—A little child about six years of age residing in the Dennis Addition to the village, on Saturday last, while passing by a cow, belonging to Mr. G. G. King, was turned upon by her, and seriously injured, so that its life was despaired of. She tossed the little girl upon her horns, one of them took in the abdomen, inflicting a severe wound, and also tearing her face awfully. The little girl was rescued, and medical attendance procured, when the wounds in her side and mouth were sewed up, and at the latest she was getting better. Vicious animals have no business to run at large, as no one is safe in their vicinity.—*Watertown Register.*

CHOLERA AMONG THE TROOPS.—A letter from Fort Leavenworth, dated the 17th, received yesterday, conveys information of the existence of the cholera among the recruits intended for the army in New Mexico. They left this city two or three weeks since, to the number of about three hundred. This letter says: "From a report received from Maj. STEEN last night, I learn that his march was arrested by the prevalence of cholera in his command. There had been nine fatal cases, and yesterday the Surgeon reported forty-seven men under treatment for that disease."—This report would show a very general prevalence of the disease.—*St. Louis Rep.* 27th.

NEW JERSEY.—Hudson County (opposite our city) held its Convention at Bergen Five Corners yesterday, to choose Delegates to the State Presidential Convention. Every town but Hoboken elected *Scott* delegates, 35 to 5. We entertain no doubt of an overwhelming Scott sentiment in the Convention. Hon. James G. KILL YOUR RATS! SLAY YOUR MICE!

Exterminate your Bugs!!

THE Celebrated RAT AND MICE EXTERMINATOR is the only article that has yet been discovered to effectually remove vermin.

The great objection to the ordinary poisons is, that although they destroy the Rats, still the unpleasant smell arising from the dead carcasses, renders the "remedy worse than the disease."

The Exterminator from the chemical combination of its ingredients, destroys not by poisoning, but by an immediate EXPLOSION, destroying all the causes of effluvia with life. It has also the singular effect of creating such a PANIC, that in a short time no Rat, Mouse or Roach will be found harboring near where it is used. Hotels, Boats and Out-Houses can be speedily freed from them by a few applications.

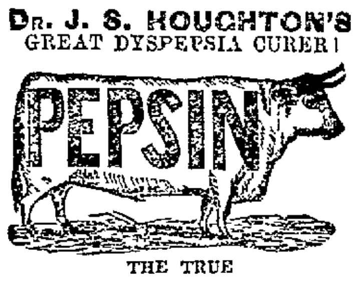
PATENT MEDICINES.

Entered according to Act of Congress, in the year 1851, by J. S. HOUGHTON, M. D., in the clerk's Office of the District Court for the Eastern District of Pennsylvania.

Another Scientific Wonder!

Dr. J. S. HOUGHTON'S GREAT DYSPEPSIA CURER!



THE TRUE

DIGESTIVE FLUID, OR GASTRIC JUICE

PREPARED from Rennet, or the fourth Stomach of the Ox, after directions of Baron Liebig, the great Physiological Chemist, by J. S. Houghton, M. D., Philadelphia, Pa.
This is a truly wonderful remedy for Indigestion, Dyspepsia, Jaundice, Liver Complaint, Constipation, and Debility, Curing after Nature's own method, by Nature's own Agent, the Gastric Juice.
☞ Half a teaspoonful of PEPSIN infused in water will digest or dissolve Five Pounds of Roast Beef in about two hours, out of the stomach.
PEPSIN is the chief element, or Great Digestive Principle of the Gastric Juice—the Solvent of the Food, the Purifying, Preserving and Stimulating Agent of the Stomach and Intestines. It is extracted from the Digestive Stomach of the Ox, thus forming an Artificial Digestive Fluid precisely like the natural Gastric Juice in its Chemical powers, and furnishing a complete and perfect substitute for it. By the aid of this preparation the pains and evils of Indigestion and Dyspepsia are removed, just as they would be by a healthy Stomach. It is doing wonders for Dyspeptics, curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption, supposed to be on the verge of the grave. The Scientific Evidence upon which it is based, is in the highest degree Curious and Remarkable.

SCIENTIFIC EVIDENCE.

Baron Liebig in his celebrated work on Animal Chemistry, says: "An Artificial Digestive Fluid, analogous to the Gastric Juice, may be readily prepared from the mucous membrane of the stomach of the Calf, in which various articles of food, as meat and eggs, will be softened, changed, and digested, just in the same manner as they would be in the human stomach."
Dr Pereira, in his famous treatise on "Food and Diet," published by Fowler & Wells, New York, page 35, states the same great fact, and describes the method of preparation. There are few higher authorities than Dr Pereira.
Dr Combe, in his valuable writings on the "Physiology of Digestion," observes that "a diminution of the due quantity of the Gastric Juice is a prominent and all prevailing cause of Dyspepsia;" and he states that "a distinguished professor of medicine in London, who was severely afflicted with this complaint, finding everything else to fail, had recourse to the Gastric Juice, obtained from the stomachs of living animals, which proved completely successful."
Dr Graham, author of the famous works on "Vegetable Diet," says: "It is a remarkable fact in physiology, that the stomachs of animals, macerated in water, impart to the fluid the property of dissolving various articles of food, and of effecting a kind of artificial digestion of them in no wise different from the natural digestive process."
Professor Dunglison of the Jefferson College, Philadelphia, in his great work on Human Physiology, devotes more than fifty pages to an examination of this subject. His experiments with Dr Beaumont, on the Gastric Juice, obtained from the living human stomach and from animals, are well known. "In all cases," he says, "digestion occurred as perfectly in the artificial as in the natural digestions."
Dr John W Draper, Professor of Chemistry, in the Medical College of the University of New York, in his "Text Book of Chemistry," page 386 says, "It has been a question whether artificial digestion could be performed—but it is now universally admitted that it may be."
Dr Carpenter's standard work on Physiology, which is in the library of every Physician and is used as a Text Book in all the Colleges, is full of evidence similar to the above, respecting the remarkable Digestive power of Pepsin and the fact that it may be readily separated from the stomach of the calf or ox, and used for experiments in Artificial Digestion, or as a remedy for disease of the Stomach, and deficient secretion of Gastric Juice.
All modern works on Chemistry, Materia Medica, and Physiology, and all good Medical Dictionaries, describe the character and properties of PEPSIN, and state many interesting details respecting it.
The fact that an Artificial Digestive Fluid, or Gastric Juice, perfectly resembling the natural fluid, may be readily prepared, does not admit of question. The only wonder is, that it has not before been applied to the cure of Indigestion and Dyspepsia—so naturally does such a use suggest itself to the mind.

AS A DYSPEPSIA CURER,

Dr HOUGHTON'S PEPSIN has produced the most marvellous effects, in curing cases of Debility, Emaciation, Nervous Decline, and Dyspeptic Consumption. It is impossible to give the details of cases in the limits of this advertisement, but authenticated certificates have been given of more than Two Hundred Remarkable Cures, in Philadelphia, New York, and Boston alone. These were nearly all desperate cases, and the cures were not only rapid and wonderful but permanent.
It is a great Nervous Antidote, and particularly useful for tendency to Bilious disorder, Liver complaint, Fever and Ague, or badly treated Fever and Ague, and the evil effects of Quinine, Mercury, and other drugs upon the Digestive Organs, after a long sickness. Also, for excess in eating and the too free use of ardent spirits. It almost reconciles Health with Intemperance.

OLD STOMACH COMPLAINTS.

There is no form of Old Stomach Complaints which it does not seem to reach and remove at once. No matter how bad they may be, it gives Instant Relief! A single dose removes all the unpleasant symptoms; and it only needs to be repeated for a short time to make these good effects permanent. Purity of Blood and Vigor of Body follow at once. It is particularly excellent in case of Nausea Vomiting, Cramps, Soreness of the pit of the stomach, distress after eating, low, cold state of the Blood, Heaviness, Lowness of Spirits, Despondency, Emaciation, Weakness, tendency to Insanity, Suicide, &c.
Dr. Houghton's PEPSIN is sold by nearly all the dealers in fine drugs and Popular Medicines, throughout the United States. It is prepared in Powder and in Fluid form—and in Prescription vials for the use of Physicians.
Private Circulars for the use Physicians, may be obtained of Dr Houghton or his Agents, describing the whole process of preparation and giving the authorities upon which the claims of this new remedy are based. As it is not a Secret Remedy, no objection can be raised against its use by Physicians in respectable standing and regular practice. Price One Dollar per bottle.
☞ Observe this.—Every bottle of the genuine PEPSIN bears the written signature of J S HOUGHTON, M D, sole proprietor, Philadelphia, Pa. Copyright and Trade Mark secured.
☞ Sold by all Druggists and Dealers in Medicine.

MISCELLANEOUS.

NOTICE EXTRAORDINARY—GREAT IMPROVEMENT.

JOHNSON'S

Chemical Hair Invigorator,

TO prevent baldness, and to restore the Hair that has fallen off or become thin, and to cure effectually scurf or dandruff. Prepared only by S JOHNSON, Jr, 151 East Water Street, Milwaukee.
The subscriber respectfully informs the public, that he has made recent improvements in the manufacture of the celebrated CHEMICAL HAIR INVIGORATOR. It was originally intended more as a restorative for diseased hair, than as a BEAUTIFIER, but by a late discovery, the proprietor is now manufacturing it on a more extended scale, and in such a manner, that without deteriorating from its beneficial qualities, it renders it more desirable as an appendage to the Toilet.
The INVIGORATOR is considered infinitely better than oil or grease for the hair, and is an article in which a cleansing and purifying wash is beautifully blended, with a most delicate, silky and glossy moisture for the hair never before attained, yet free from animal grease or essential oils. It clears the pores of the skin, causes a healthy action of the blood vessels, nerves, &c, which free the hair, thereby preventing baldness and grey hair; entirely frees the skin from scurf, dandruff and other cutaneous diseases, disposes the hair to curl and keeps it so, will positively change the harshest hair into the most soft, healthy and glossy state, also imparts to it a darker color, and the free use of it will keep both the skin and hair in a healthy and luxuriant state until the latest period of life.
Ladies will find the Invigorator a great addition to the toilet, both on account of its delicate and agreeable perfume, and the great facilities it affords in dressing the hair, which when moist with the Invigorator, can be dressed in any required form so as to preserve its place, whether plain or in curls. When used on children's heads it lays the foundation for a good head of hair.
N B—Those having Invigorator on hand may exchange for the improved.

Green Block, Water St.,

(Between Maiden Lane and Wall Street,)

NEW YORK.

THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which he was awarded a medal.

The American Fair held last fall at Castle Garden, also awarded to him a gold medal for the best Fire Proof Safe, and he has never failed to obtain the highest premium when his Safe has been put in competition with others for that purpose. Certificates have been received from the following well known merchants and houses, who have had their books, papers and money preserved in these superior Safes within the last thirty days, (and can, with many others, be seen at my store,) viz: Messrs. Stillwell & Montross and Mr. J. C. Watkins, in the Fulton Street fire; Messrs. Foster & Hinson, and Messrs. John Lockwood & Co. in the great fire corner of Liberty and Nassau Streets, and Messrs. Freund & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal (in the name of Adams & Co., Boston) at the World's Exhibition, and is considered the best Lock for the price ever invented, being proof against powder, and the key is no larger than a cent, and can be made to change at pleasure.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best Fire, Burglar and Damp Proof Safe combined.

SALAMANDER SAFES.

WILDER'S PATENT AND RICH'S PATENT COMBINED.

$100,000 SAVED.

FIRE in Pearl Street and Fletcher Street, New York—Three Stores and their contents destroyed. Deeds before words!

RICH'S SAFES AGAIN!

ELEVEN Safes of different makers consumed, with their contents. The Safe made by Rich & Co. defied the flames and brought out its contents without a mark of fire upon them.

MR. GILBERT'S LETTER.

[illegible]

New York, Dec. 20, 1851.

Messrs. Stearns and Marvin, successors to C. Rich & Co., No. 146, Water Street, New York:—Sirs, when the fire was consuming my place of business, No. 216, Pearl street, I was absent in Rensselaer County testing a new cleaning apparatus in connection with my Excelsior Thresher, and did not read the account until I was fearful it was too late to save my books which were placed in one of your safes, purchased from Mr. Marvin some years ago. My fears were not allayed when I found it necessary upon my return to apply the Croton Water 40 hours before I was enabled to commence operation, after which it required [illegible] hours of labor and application to raise the Salamander from the ruins. You may judge of my anxiety during this [illegible] delay, and my agreeable surprise upon opening the safe in the presence of a number of gentlemen to find my books and papers saved and as legible as they were previous to the fire. The intense heat to which the Safe was subjected can be conjectured from the condition of another safe, (not a Salamander) of which an iron skeleton frame only remained, and not a vestige of a book. They were contained in the same office, on the second floor, from which they fell upon cases of earthenware in the cellar, the ruined [illegible] upon the Salamander. If their position had been reversed, not even the skeleton would have remained. My loss over the insurance is $1,900, yet the salvation of my books in your Salamander, with their representatives of $100,000, and important documents, which could not be duplicated, has fully compensated me.

It will afford me great pleasure to exhibit the new safe purchased of you and explain its merits, at my present office, No. 21 Pearl street, where I shall remain until the new building, No. 216 is erected.

Yours respectfully, JOSEPH G. GILBERT.

The undersigned invite country merchants and those interested in the preservation of their books from fire, (but particularly those having Rich's safes in use) to call at the depot 146 Water Street, New York to see the interior of Mr. Gilbert's safe with the books undisturbed, which he has kindly permitted to remain for the satisfaction and gratification of the public.

☞ Orders for Burglar Proof Vaults, and Vault Doors, promptly and faithfully executed.

IMPORTANT TO THE PUBLIC!

THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other newspapers in the United States, by James G. Wilson, Esq., the owner of the "Woodworth Patent," shortly after [illegible] advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING AND GROOVING MACHINE," throughout the United States.

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion [illegible] notices through the papers, of the Stationary [illegible] Machines attempted to be palmed [illegible] ignorant of their true worth. I would [illegible] information of the enquirers that this will [illegible] the machine now offered by several pretending inventors, described in the 1st volume of the Repertory of Arts, invented by Samuel Bentham in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since and another [illegible] put up by Albert Richards, of West Troy, N. Y., and abandoned upon the same time. [illegible] to satisfy the public that [illegible] eight years' experimenting upon those machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and [illegible] per cent. for my trouble.

JAMES G. WILSON, Philadelphia."

May 19, 1849

I deny that any person ever saw or heard of such a machine as mine until I invented the same. Said machine was operated in the month of August, 1848 and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, [illegible] in order that the public may be assured that I mean what I say. I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson that ONE of my machines will plane, or plane, tongue and groove with the power as much lumber in the same time and do it as well or better than TWO of the "Woodworth" machines. The trial to be made at my Steam Mill, Border st., East Boston, Mass., or at such other place as may be convenient for such trial.

CERTIFICATES OF RECOMMENDATION.

BY the present I attest my entire satisfaction with the roof of my house, covered with the pressed, fire proof Tile invented by Mr. Græssle, having found them perfectly secure during snow storms, rains, wind and in one [illegible] I hereby take occasion to recommend said roof covering to every house builder, inviting them to satisfy themselves by ocular inspection of the excellent quality of the same.

ENNO MEYER, Druggist, 374 W. Water st., 2nd ward

Milwaukee, Feb 3, 1852

The above I found true in every respect, as to the roof of my house, covered with the same tile invented by Mr. Græssle.

AUGUST KRUG, Brewer, Chestnut st., 2nd ward

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle have found them perfectly answering the purpose intended. Their practical and judicious construction recommend this kind of Tile, not only as a fire proof and perfectly water proof covering but above all for its durability. The ridges and channels not only exclude the entering of snow or rain water, but, by their firm and precise joining of one into the other, they give to the single Tile as well as to the whole covering an almost [illegible] movable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable and adjusting to the above another virtue, that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

To G. Græssle.—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire proof roof.

from which the above cut was taken. By it we can take the exact shape, and unerringly fit the most irregular heads. Many can testify to the inconvenience, and annoyance, and actual pain they are subjected to, in breaking in Hats that will not fit them. By this ingenious contrivance, this very great annoyance is done away, as the Hats are made to fit perfectly the first time.

Another great advantage is, by keeping a copy of the impression, we can at all times fit our customers from all parts of the country.

We invite all who desire a perfect fit in a Hat to call and leave an impression of their head, and all those who take pleasure in witnessing the inventions of the ingenious to call and see the operations of this curious instrument.

Having adopted the CASH SYSTEM (which all will readily acknowledge to be the best,) we are enabled to sell the best Silk Hat made, at the extreme low price of $1.25; surpassing any $5 Hat sold in this city. Our Hats are all manufactured by ourselves, and in offering them to our customers, we do so, with the confident assurance, they are all we recommend them to be. PATENT MEDICINES

Graefenberg Medicines

HAVE YOU USED THEM?

AS popular medicines, prepared carefully and scientifically, and adapted to the wants of the American public, they have no superiors. They are emphatically what they are represented to be, genuine, and free from Humbug, intended as much to cure as to sell. When once used, they are universally relied upon, and no Family should be without these truly valuable aids to Health. In many instances the "regular faculty" recommend and use them, such is their force over the prejudices of those so generally opposed to the circulation of POPULAR MEDICINES. No Family Physician, in ordinary cases, is needed by those who own the Graefenberg Manual of Health, and strictly abide by its directions in the use of the medicines.

A word to the wise is sufficient, without the publication of certificates, which we have of the most flattering description always open for the inspection of the incredulous.

We will enumerate in conclusion the various preparations of this Company, which may be found in every town in the State throughout the Union.

THE GRAEFENBERG SARSAPARILLA, is purely vegetable, no big bottle humbug, or pleasant drink, but as it should be a Medicine of the greatest power in promoting an entire change in the system by eradicating those impurities of the blood which are the seeds of almost incurable disease in man.

THE GRAEFENBERG DYSENTERY SYRUP.—Public approbation has stamped upon it the character of perfect. It has checked the ravages of Cholera in its last stages and for bowel complaints it has no equals.

THE GRAEFENBERG VEGETABLE PILLS, are particularly valuable for the prevention and cure of Fevers in general. They act gently, naturally and surely and in connection with our Health Bitters, are a certain and speedy cure for the Fever and Ague. The Bitters have a wonderful effect in invigorating a debilitated system.

THE GRAEFENBERG GREEN MT. OINTMENT.—In reducing inflammation, healing burns, bruises, and all injuries to the body, we can confidently recommend this salve to all as being most efficacious. In the Mineral Region of our State its merits are universally appreciated.

THE GRAEFENBERG EYE LOTION.—An unpretending article, but one which meets with large sales in the West, and has been the humble means of relieving thousands from intolerable pain arising from injured or diseased eyes. Try it.

THE GRAEFENBERG UTERINE CATHOLICON.—This is perhaps the most valuable medicine of this Company, inasmuch as it reaches cases despaired of by the most scientific physicians. For Prolapsus Uteri, and all complaints incident to Females, it will be found a safe and speedy remedy. Let no afflicted woman be deterred by delicacy or prejudice from giving it a fair trial. Inquire of the agent for the pamphlet in relation to it.

THE GRAEFENBERG PILE OINTMENT, CHILDS PANACEA, &c. are all invaluable remedies, directions for which and all the medicines are attached to each.

THE HUMAN FRAME

Is the most perfect masterpiece of mechanism in the universe. Every artery, muscle, ligament, sinew, bone, exhibits in its formation the wisdom of the Deity. Every joint and sinew works harmoniously with each other, and upon the natural performance of every function depends the healthful action of the whole.

PAIN

Disorganizes the whole system, it prostrates the nerves, it relaxes the muscles, it weakens the joints, it interferes with the functions of every organ, it checks the free and healthy circulation of the blood, it paralizes the absorbents and renders them unable to take up and replete the wasted form with sound material. From the very moment that this beautiful masterpiece of God becomes afflicted with pain the influence is experienced throughout the whole system, no matter in what particular locality the pain may originate; whether in the Head, the Feet, the Back, the Knee Joints, the Elbows, the Teeth, the Gums, or the Stomach, whether it arises from internal derangement or is the result of external injuries, still the pain exercises its influence throughout every portion of the human system—not a nerve or a muscle escapes its prostrating influence.

INSTANT RELIEF FROM PAIN

Is the great desideratum of every individual who suffers its tortures, no matter how light or severe its paroxysms may be. No one can feel happy while suffering its torments.

RADWAY'S READY RELIEF

In a few seconds

WILL STOP THE MOST DISTRESSING PAINS

Its effects are like electricity; it arrests the most distressing pangs in a few seconds, its soothing, neutralizing, and healthful influences thrill through every minute cell, membrane, and establishes the secretion of every gland in the system, subduing the most excruciating paroxysm of pain, and imparting strength and vitality to every organ.

NEURALGIA.

PAIN STOPPED INSTANTLY.

Radway's Ready Relief possesses an almost miraculous influence over the sharp darting pangs of pain of this cruel complaint. In a few minutes the pain stricken sufferer experiences the delightful sensations of departing pain. It has cured thousands of cases in the city of New York, where many of them had been brought almost to death's door. The effects of the Ready Relief is to stop the pain immediately, to strengthen the nervous system, and supply the nerves with nervous energy and vitality, the loss of which is the chief cause of nervous pains.

DANGEROUS PRACTICE.

The use of Morphine, Strychnine, Aconitine, Belladonna, Arnica, and other poisons are not only dangerous but cruel. The effect of these poisons is not to cure the disease, or to remove from the system the pains, but to deaden the nerves, to weaken and stop the nervous energy, to paralyze the functions of the nervous system, and to destroy sensation.

If this practice is continued for any length of time, the patient will not only waste away, but the brain will become paralyzed, and the intellect destroyed.

RADWAY'S READY RELIEF

IS FREE FROM MORPHINE,

And all other dangerous and narcotic influence. To the weak and paralyzed nervous system it imparts life instead of death, and the pain is stopped by the healthy influence which Radway's Ready Relief imparts to the nerves instead of the lifeless, sleepy and paralyzing effect which Morphine, and all other preparations containing this poison, produces on the system.

SICK HEADACHE.

Radway's Ready Relief will stop the most distressing pains in a few minutes, and prevent renewed attacks. It will cleanse and sweeten the stomach, and neutralize the poisonous acids of the system.

ALL BOWEL COMPLAINTS,

Diarrhœa, Dysentery,
Bloody Flux, Cholera Morbus,
Painful Discharges,

It relieves the most severe pains in a few minutes—checks the most distressing discharges, and

SPEEDILY REMOVES THE CAUSE.

RHEUMATISM.

PAINS RELIEVED IN FIVE MINUTES

Radway's Ready Relief will stop the severe and excruciating pains of Rheumatism almost instantly. Persons are living in this city who, for months, were confined to their beds by Rheumatic pains, whose bones were unsound from top to toe, whose joints were distorted with painful swellings, that were relieved from all pain in 15 minutes by the use of Radway's Ready Relief. This is truth, and thousands in the city of New York, and hundreds of thousands in the United States, can answer for the truth of this assertion—we need no certificates of Cures—we publish no long list of names to prove the efficacy of Radway's Ready Relief, for the Citizens of almost every town in the Union, for the last four years, have tested it for themselves.

CHILL FEVER.

CHILLS STOPPED IN A FEW MINUTES—PAIN RELIEVED INSTANTLY.

Radway's Ready Relief acts like a charm in all cases of Chills and Fever. It breaks the chills immediately—warms up and invigorates with health and strength every organ and secretion of the system.

PAINS OF ALL KINDS

Wherever you feel pain, apply Radway's Ready Relief—it is sure to relieve you in a few minutes. If you have pains in the Stomach, Intestines, in the Liver, Kidneys, Bowels, Joints, Bones, Radway's Ready Relief, taken either internally or applied externally, will in a few minutes stop pain and quickly remove its cause.

[From the Boston Bee.]

The Editor said, Dec. 31: "Dr. Hoofland's celebrated German Bitters, for the cure of Liver Complaint, Jaundice, Dyspepsia, Chronic or Nervous Debility, is deservedly one of the most popular medicines of the day. These Bitters have been used by thousands, and a friend at our elbow says he has himself received an effectual and permanent cure of Liver Complaint from the use of this remedy. We are convinced that, in the use of these Bitters, the patient constantly gains strength and vigor, a fact worthy of great consideration. They are pleasant in taste and smell, and can be used by persons with the most delicate stomachs with safety, under any circumstances. We are speaking from experience, and to the afflicted we advise their use."

Scott's Weekly,

One of the best literary papers published, said, August 25: "Dr. Hoofland's German Bitters, manufactured by Dr. Jackson, are now recommended by some of the most prominent members of the faculty, as an article of much efficacy in cases of female weakness. As such is the case, we would advise all mothers to obtain a bottle, and thus save themselves much sickness. Persons of debilitated constitution will find these Bitters advantageous to health, as we know from experience the salutary effect they have upon weak systems."

The Daily Sun says:—"It is one of the best medicines of the age for Jaundice and Liver Complaint."

Neal's Gazette says:—"Dr. Hoofland's German Bitters we know to be an excellent article fulfilling in every respect what is claimed for it by the advertiser."

The Evening Bulletin says,—"The celebrated German Bitters are said to be an invaluable remedy for Jaundice, Dyspepsia, and Nervous Complaints."

The Daily News, July 21, says:—"A Medicine"—We speak knowingly of Dr. Hoofland's celebrated German Bitters, when we say it is a blessing of this age, and in diseases of the biliary, digestive and nervous systems, it has not, we think, an equal. It is a vegetable preparation, and made without alcohol, and to all invalids we should recommend it as worthy of their confidence."

The Dispatch says:—"As a medicine for Liver Complaint, Jaundice, Nervous Debility, and Dyspepsia, it has been found invaluable, effecting cures and thoroughly eradicating disease, when all other medicines have failed."

That this medicine will cure Liver Complaint and Dyspepsia, no one can doubt, after using it as directed. It acts specifically upon the stomach and liver—it is preferable to calomel in all bilious diseases—the effect is immediate. They can be administered to Females or Infants with safety and reliable benefit, at any time.

LOOK WELL TO THE MARKS OF THE GENUINE.

They have the written signature of C. M. JACKSON upon the wrapper, and the name blown in the bottle, without which they are spurious.
